A new year a new Chairman

Following a promotion and change in his job role at Phillips 66 Colin Hodgson stood down as Chair of Concom in December 2014. His place has been taken by Trevor Thompson of Greenergy. Although Greenergy only joined Concom in 2010 Trevor's involvement with the scheme goes back much further through his previous roles with Lenzing and Accordis. The scheme records show him carrying out one of the very early audits in 2001.

Jan Stevens for Total LOR remains Vice Chair and contact details for David, Sarah and myself remain the same.

Membership fees unchanged for 2015-16

The Concom Committee has agreed a budget for the coming year with no increase in membership fees. That's no fee increase since 2007!

When paying your membership please check you are paying the correct bank account. The account details changed in 2012 when CATCH and HCF merged. The correct bank details are on the bottom of the invoice.

Monitoring Systems Performance

New Audits

In the past Concom audits had been focused solely on those contractors who had personnel carrying out work on the clients site.

In 2014 the question was raised about contractors who carry out safety critical work at their premises, and the Engineering Managers Forum asked to look specifically at the overhauling of pressure relief safety valves.

With the aid of some safety valve experts from a couple of clients and procedures from several others we developed an audit questionnaire for contractors who carry out this work. These audits are carried out separately from the normal systems audit and are done with a specialist client auditor.

www.hcfhumber.co.uk and click the Concom tab.

Catch up with Competency

2015

This years Catch up with Competency event will be Tuesday 8th September here at CATCH. HSE have confirmed they will be attending and as usual there will be presentations from both clients and contractors.

Final agenda and invitations will be coming out to all members in the next couple of weeks. This year we are returning to our core theme of 'Demonstrating Competence now.'

Concom Website

Do you use the Concom website? Concom audit information is made available to authorised client staff through a website system. Contractors can also access some information through this system. Once logged in contractors see the same data the clients see about them, but contractors can only see their own audit data. You can check your company details are correct and amend them if need be and access general information such as Forum meeting minutes, training course information and other news.

You can also access the 'Services Database'. This shows all the contractors in Concom or who have successfully been through the PreQual system and the type of services they provide, useful if your looking for a sub contractor.

If you don't already have a login or have forgotten your login details and would like to have look contact any of the Concom/Prequal team.

Apprentice Awards

£500 1st Prize

Do you have an apprentice you think is better than the rest? Enter them in the Concom Apprentice awards. Cash prize for the winner and 2 runners up plus good PR and publicity for their employer. We are looking for final year or recently completed apprentices in any discipline, with any training provider. They don't have to have based at CATCH, the only requirement is that the employer is a Concom member.

Apprentices need to write a short description of what they have achieved in their apprenticeship, approx. 750 words including exam and technical qualifications. Obtain a supporting testimony from the employer and submit these to concom@hcfcatch.co.uk

The awards are sponsored by the Energy Institute and winners also receive a years free membership of the Institute.
