

Prequal update

David Hand
Prequal Coordinator

8th September 2015

07-Sept-15

07-Sept-15

Humber Prequalification

- Client initiative launched November 2008.
- 400 Contractors assessed.
- 13 referred.
- 6 rejected.
- In 2011 Prequal and Concom were joined in a merged scheme.

How Prequal works

- Each Client has at least one delegate on the Strategic review group.
 - Meet annually (December).
 - Review the project and cases to ensure right decisions are made by HCF CATCH.
- HCF CATCH administers the project/system and reviews each questionnaire/evidence received and produces scorecard (general, finance, quality, safety and environmental aspects) and RIDDOR/OSHA safety performance data with a recommendation to approve or otherwise.

Prequal News

- Possibility of a further merger Client becoming a new Prequal Client.
- Suggestion of Prequal being used to assess subcontractors for some of the Concom members.
- Welcome to 13 companies recently approved through Prequal.

07-Sept-15

Preval

- A new scheme started in 2014 for contractors wishing to work for the merger Clients but unable to obtain a nomination.
- 9 companies successfully approved, 2 of these have since worked for 2 of the Clients.
- Welcome 4 recently approved companies to the event.

Closing

- On my introduction to a new nominated contractor, I always advise I am here to steer them through the Prequal assessment as painlessly as possible.
- There are always **PRO**blem areas resulting in queries, but hopefully a successful outcome is achieved.
